

GENERAL INSURANCE COMMUNITY

(Vote for up to three candidates)

Raymond Goh

Brek Hayward

Cheok Yeow Leow

Raymond Goh, ASA
Associate Actuary
Actomate
Kuala Lumpur, Malaysia

Professional Background

General insurance actuary with experience across Southeast Asia, supporting insurers in reserving, pricing, IFRS 17 implementation, financial modelling, economic scenario generator (ESG) modelling, regulatory reporting, and product development. Currently working at Actomate, with exposure to insurance markets including Malaysia, Indonesia, Cambodia, Laos, and Vietnam.

Society of Actuaries Experience

I am currently serving as Secretary of the General Insurance Community Advisory Team (GI CAT) for the remainder of the current term. I regularly participate in SOA professional development activities and closely follow developments within the general insurance profession, particularly in IFRS 17, analytics, climate risk, and emerging technologies.

Other Relevant Volunteer Experience:

I am an active church volunteer involved in music ministry as a worship leader, as well as event coordination and community activities.

Why are you interested in leading this Community?

I am passionate about supporting professional growth and knowledge sharing within the actuarial profession. Through this role, I hope to contribute to a collaborative community where members can learn from one another, build connections, and support younger actuaries entering the industry.
