

Important Notice For Exams ALTAM and ASTAM dtd April 13, 2026

Beginning with the April 2026 administrations of Exams ALTAM and ASTAM, the SOA will no longer allow rescheduling of these exams for the following scenarios:

1. Submitting the Question 1 Excel file before the entire exam is finished. Files should only be submitted after all questions in the exam are answered (Excel and written-answer). This is covered both in the exam tutorial and in the actual exam itself with a warning screen directly before the file upload section.
2. Disconnection of power cords, keyboards, or other computer infrastructure at Prometric during the exam administration. Please be careful **not** to disrupt the various connections to your computer while testing at Prometric.

Candidates whose ALTAM or ASTAM Exam ends early because of any of the issues above will not be allowed to reschedule their exam in the current exam session.
